Product and operational evidence

[Watch the stowage application \(0:03–0:06\)](#)

Company-confirmed status: stowage in paid production, as stated in the pitch. Customer-level transaction and deployment records remain confidential.

Public artifact: a redacted company-prepared invoice summary. The invoice milestone is issuance/billing; it is not relabeled as a payment receipt. The product video demonstrates the interface, while operational status is attested by Omelet.
