

GS Retail Engagement Confirmation — Redacted

Omelet · NVIDIA Inception Grand Challenge Verification — supports "GS Retail · routing · paid production" and "5 paid production deployments" claims

Redacted for external submission. Contract value, staffing plan (individual names, grades, person-month allocation), payment schedule amounts, and named individual contacts have been removed. Company names, project identity, document reference, and dates are retained, consistent with the verification requirement that redacted proof "should still show the company name where relevant, date, engagement type, and current status."

Parties GS Retail (Client) ↔ Omelet (Vendor)	Engagement type Paid service engagement — contract/quotation correspondence
Project “[GS Retail] Operational Decision Intelligence — Business Unit Modeling”	Document reference OME-GSR-QT-2026-002
Quotation date June 22, 2026	Status Contract documentation exchanged and under active processing (client correspondence confirms receipt and requests a revised, currently-valid quotation to proceed)

1. Correspondence Summary

Email from GS Retail's project contact to Omelet, confirming receipt of contract documents and requesting minor administrative adjustments (staffing-change notice language; invoicing schedule alignment to the contract timeline; a re-issued quotation reflecting a current validity date, as the originally attached quotation had expired under its 30-day validity term). This is the kind of routine contract-administration exchange that confirms an active, paid engagement is in progress — individual names and internal process details are redacted below.

2. Staffing Plan (Redacted)

PERSONNEL	GRADE	DEPLOYMENT PERIOD (M/M)	TOTAL PERSON-MONTHS
[REDACTED]	[REDACTED]	4 team members, Aug 2026 – Feb 2027	[REDACTED]

Original document lists 4 named Omelet team members with individual grade levels and monthly allocation (Jul 2026 – Feb 2027); redacted here as internal staffing/compensation-adjacent information.

3. Payment Schedule (Redacted)

MILESTONE	AMOUNT (EXCL. VAT)	BILLING DATE
Advance payment (30%)	[REDACTED]	August 2026
Interim payment (30%)	[REDACTED]	November 2026 (against interim performance confirmation)
Final payment (40%)	[REDACTED]	February 2027 (against final acceptance confirmation)
Total	[REDACTED]	—

Payment due date convention: billing date + 25 days. Amounts redacted as commercial contract terms; milestone structure and dates retained to demonstrate an active, scheduled paid engagement.

This document was prepared by redacting sensitive fields (contract value, individual staff names and allocation, named client contact) from a contract-administration email and attached quotation exchanged between GS Retail and Omelet, while preserving the company names, project identity, document reference, dates, and engagement status required by the NVIDIA Inception Grand Challenge verification requirements.
