SLIDE / SECTION	CLAIM MADE	CLAIM CATEGORY	EVIDENCE FILE / LINK
1, 8	15 customers; 18 projects; 7 industries; \$1.4M contracted	Business	B1 · Traction register Not yet verified
1, 3, 8	5 paid production deployments	Business	B1 · Deployment scope Total not yet verified
3	GS Retail: routing / paid production	Business	B2 · Engagement + supplied PDF Engagement summary; production not yet verified
3	Hyundai Glovis: stowage / paid production	Business	B3 · Engagement + supplied PDF Invoice summary; production not yet verified
1, 3, 8	CAU nurse scheduling: 2 weeks → 90 seconds	Impact	B4 · Public article + supplied PDF 90 s reported; baseline / paid status not yet verified
1, 3, 8	20%+ delivery cost reduction	Impact	B1 · Impact evidence status Not yet verified
3, 8, A4	Validation projects; 6 OCPs operating / 9 discussions; 12 built	Business	B1 · Scope register · B5 Not yet verified; asset count: B5
4, A4	RL4CO: KDD 2025; 27 environments; 23 baselines	Research	T4 · Paper + repository Publication supported; oral designation unverified
4, A4	61 ML papers; 36 at NeurIPS / ICML / ICLR; 897 stars	Research	T4 · Lab list + dated screenshot Publication counts checked; stars are date-specific
4–7, 9	CUDA / cuOpt integration; OCP / OIP; Factory / Studio / Foundry	Technical	T5 · Architecture + integration status Integrating; shipped NVIDIA adoption unverified
A1–A2	Warehouse MILP: cuOpt 15.4 s total; 316,814 variables	Benchmark	T1 · Results + methodology Internal experiment; owner / logs pending
A1–A2	GS routing: cuOpt 2,610 km / +0.83% gap at 60 s	Benchmark	T2 · Results + methodology Internal experiment; limits and gap basis stated
A1–A2	Solomon: RouteOpt +0.08% gap; 38/56 wins	Benchmark	T3 · Results + methodology Internal experiment; LKH time exception stated
A1	Published large-scale CVRP: ~250× vs LKH-3 at 7K nodes	Research	T4 · Paper Table 5.4 Published comparison; not a product benchmark
1, A4	Founded 2023; Seoul; 28-person team; founder credentials	Business	B5 · Company and team Company-reported; not yet verified
5, 8–9, A3–A4	Isaac Sim / LP-MIP roadmap; \$3M→\$50M revenue; US hire	Plan	B5 · Plans · T5 Forward-looking; not achieved results
A5–A7	Market sizing, competitor figures, positioning and moat	Context	B6 · Appendix claim coverage Figures not yet verified; strategy labeled

Scope: Documents distinguish public sources, company summaries and internal experiments. “Not yet verified” means supporting proof is insufficient. Integration work and plans are not shipped adoption or achieved results.
